## SKILLS

- **Programming Languages:** JavaScript, Typescript
- **IT Constructs:** Data Structures and Algorithms, OOPS, DBMS
- **Web Technologies and Frameworks:** HTML, CSS, Next.js, React.js, Bootstrap, Tailwind
- **Backend and API:** Express.js, Node.js, MongoDB, Firebase Authentication, JWT
- **WebDev Tools:** VSCode, Postman, Chrome DevTools, GitHub, Figma, Netlify, Vercel

## EXPERIENCE

- **Techwens Private Limited** 8/2022 – Present  
*Jr Fullstack Developer* Kolkata, India
  - As a Full Stack Developer, I took on the project of revamping the entire website for [knighthunt.com](#), giving it a modern, responsive design with custom-built pages. The project was built on **Node.js**, where I used **Express.js** to create the server and handle routing for different pages. The database layer was managed using **MongoDB Atlas** and **Mongoose**. I crafted the visual design using **vanilla CSS** to give the website a unique look and feel, while **JavaScript** and **TypeScript** were used for adding dynamic functionality. I also integrated **Swiper.js** to develop custom carousels and utilized **Axios** for sending form data asynchronously. Hosted the project on **AWS EC2 Instance**.
- **Cogenthub Private Limited** 10/2021 – 6/2022  
*Web Designer* Kolkata, India
  - Worked as a Web Designer. Created reusable React components with HTML themes. Made navigation using React Router. Created custom sites using vanilla CSS and JavaScript. Used Bootstrap in some existing projects. Some featured projects are [cogenthub.com](#), [founderscard](#)

## EDUCATION

- **JLD college of engineering and management** 2020 - Continue  
*B.Tech* Kolkata, India
  - Currently in the 7th semester of Mechanical Engineering.
- **JLD college of engineering and management** 2019  
*Diploma Engineering* Kolkata, India
  - complete Diploma Engineering in Mechanical Engineering

## PROJECTS

- **KnightHunt:** An e-commerce platform for t-shirts, providing a seamless shopping experience. Built with React, Next.js, TypeScript, and Redux for optimal performance and user experience.
- **HR Management System (HRMS):** A comprehensive employee management dashboard that stores and manages all reports related to salaries, EPF, ESI, attendance, and employee information. Developed using React, Next.js, TypeScript, and Redux.

## COURSES

- **Complete Web Development** 12/2021 – 6/2022  
*Programming Hero*
  - Mastered web page structure with semantic tags and accessible content.
  - Developed styling skills and animations, learned responsive design, and built complex UIs with React.
  - Gained expertise in state management with hooks and the power of JSX.
- **Think with Redux** 9/2022 – 1/2023  
*Learn with Sumit*
  - Centralized and managed application state efficiently with Redux.
  - It is particularly useful in larger applications with complex state requirements, including API invocation, caching, and revalidation.
- **Next Level Web Development - Fullstack Track** 10/2023 – 6/2024  
*Programming Hero*
  - Understanding server-side development with Node.js and building RESTful APIs with Express.js.
  - Managing data with MongoDB and implementing unit tests, integration tests, and end-to-end tests to ensure code reliability and maintainability.
